

April 2012

Capital Partners Vietnam Consulting Company Limited

President's Message

I am Le The Binh, the President of Capital Partners Vietnam Consulting Company Limited (CPVN).

In recent years, emerging countries such as Vietnam have witnessed a dramatic increase in infrastructure projects. In Vietnam, infrastructure projects such as high-speed railway and energy businesses have been going to be pushed forward with the support by Japanese partners.

Under the circumstances, CPVN was established with the support of Capital Partners Securities Co., Ltd., (CPS) in Japan. We are providing the following services ; 1) providing information on Vietnamese Economy and Corporations, and remarkable economic and financial news. 2) providing information on mergers and acquisitions (M&A) between Vietnam and Japan in order to act as a business bridge to meet our customers' expectation.

CPVN will start with a small team, but I do believe think that business tie-ups between Vietnam and Japan would increase more and more and do expect that we could grow up as a bridge of the two countries.

Your continuing support for our activities is really appreciated.

Message to Our Customers

Vietnam, whose population would be approx. one hundred million by 2020, is geographically close to Japan in Asia, so I think Vietnam is a key market for Japanese corporations to expand their businesses.

I do hope that Vietnam would be the important hub for Japanese Corporations, and would like to achieve what we "sell Japan to Vietnam".

I really hope that our customers could understand and love Vietnam by providing updated Vietnamese economic information. In order to achieve it, I have been trying hard as hard as possible every day.

I believe that there is much to be done for Vietnam as one of the emerging countries from now on. We really thank in advance for your continuing support.

Through studying abroad and my work experience, I came to have understood Japanese unique culture and Japanese way of thinking.

I am happy to send useful and local Vietnamese information to our clients by taking full advantage of my work experiences.

I believe that there is a good opportunity in Vietnam for foreign investors.

I will do my best so that these investors can realize that it is true and become to love Vietnam.

I understand that the economic development and the traditional culture in Japan is one of the symbol in the world. By making use of the knowledge from my studies at the university above and my work experience, I would like to contribute to both our customers' and CPVN's growth.

I expected that Vietnam and Japan would deepen exchanges each other through CPVN.

Message to Our Customers

In the current globalization era, any impact resulting from both financial and stock market in one country has spread across the world.

I am going to keep in mind our company's mission and my responsibility in CPVN.

The experience I gained from 5 years worked with Japanese companies helped me too much for my Japanese and knowledge about the Japanese corporate culture.

Located near 4 World Heritage Sites, Danang also has My Khe Beach which is considered one of the most beautiful beaches in the world. With these advantages, Danang is a must visit place for tourists.

In recent years, growing Vietnamese economy and its developing stock market has been very attractive for our Japanese customers.

I would like to contribute to our customers' growth through my work experience in Japan.

In order to meet the purpose of Japanese investors, I think the reliable information is very necessary. I'll do my best to provide valuable information on fastest to customer. The becoming an important hub for Japanese investor and Vietnam market is my worth of work.

I believe that Danang as the east end of the East-West Economic Corridor will become an attractive location for investment. I will try my best to bring our customers the latest news about Danang and Central Vietnam.

I will do my best to give quick, accurate and useful Vietnamese investment information to our customers by taking full advantage of my study experience in both Japan and Vietnam.
